

## SEWAGE SYSTEM SEARCH APPLICATION FEE

A \$175 fee must accompany this search application. Requests must be accompanied with either a Letter of Authorization from the owner, a letter from the owner's solicitor indicating they are acting as the authorized agent, or a copy of a signed offer to purchase requesting this information as a part of the offer. Please note that Public Health records may not cover all permit approvals. If this search is for a Real Estate transaction, a copy of the listing would be helpful.

Requested by: Gord Sly Phone: 613-386-3855  
241 Mud Lake Rd., N. Fax: \_\_\_\_\_  
RR#3 Odessa ON

 Year of installation &/or replacement: 1975 (Approx.)  
 List of all owners back to 1969 if known (or attach list of chain of title).

Dan Keeler (previous owner)

Were any permits from Public Health issued for any additions, changes or alterations (ie garage, pool, additional bedrooms)? no  Permit number \_\_\_\_\_

### RESPONSE

Based on the above information received, we were unable to locate a record of the related sewage disposal system in our files.

It is suggested that the purchaser have the septic tank pumped. An examination of the inlet and outlet baffles and the depth of the scum and sludge will assist in determining the maintenance of the system over the past years. The purchaser is also advised to obtain a sample of their water supply for bacterial analysis.

**NOTE:** Life expectancy of a sewage system is dependant on past usage & maintenance.

- Use Permit not issued.
- Use Permit /Certificate of Approval issued. Please find copies of these papers attached.
- To our knowledge there are no outstanding work orders against this system at this time.
- There are outstanding work orders against this system.
